From avalanches to glaciers, from seals to snowflakes, and from Shackleton's expedition to The Year Without Summer, Bill Streever journeys through history, myth, geography, and ecology in a year-long search for cold -- real, icy, 40-below cold. In July he finds it while taking a dip in a 35-degree Arctic swimming hole; in September while excavating our planet's ancient and not so ancient ice ages; and in October while exploring hibernation habits in animals, from humans to wood ...

Cold: Adventures in the world's frozen places by Bill Streever, Little, Brown & Co, \$24.99. THE reality of global warming makes Cold – an account of Earth's relationship with the other end of the thermometer– all the more intriguing. Streever recounts his year chasing the cold and studying its effects on various ecosystems.

Bill Streever is the bestselling and award-winning author of And Soon I Heard a Roaring Wind , Cold, and Heat. As a biologist, he has worked on issues ranging from climate change to the restoration of Arctic tundra to underwater noise to the evolution of cave crayfish. With his wife and co-captain, he splits his time between Alaska and their cruising sailboat, currently in Central America.

[Cold: Adventures in the World's Frozen Places Bill ...](#)

Reading "Cold - Adventures in the World's Frozen Places" was a very unexpected delight! I am not usually a reader of non-fiction, but this book was so interesting and well written. The language is rich and well developed, the stories are great, the science is fascinating and most importantly, you can easily tell how much the author loves everything cold, but especially Alaska and the far north.
