The AISC Committee on Manuals prepares design examples to illustrate the application of the provisions in the AISC Specification for Structural Steel Buildings. The complete set of design examples includes 166 example problems totaling 985 pages, and it is a free download that can be found at aisc.org/designexamples.

In addition to the examples that demonstrate the use of the AISC Manual tables, design examples are provided for connection designs beyond the scope of the tables in the AISC Manual. These design examples are intended to demonstrate an approach to the design, and are not intended to suggest that the approach presented is the only approach.

The AISC Design Examples CD provides examples on the application of the 2005 AISC Specification for Structural Steel Buildings (ANSI/AISC 360-05) and the AISC Steel Construction Manual, 13th Edition. The examples found herein illustrate how the Specification and Manual can be used to determine solutions to common engineering problems efficiently, and outline the background to many of the ...

Interactive design aids in accordance to US codes ACI 318-11, AISC 14th edition and ASCE-7-10 Guidelines of use After installing a free trial or demo version the interactive templates will be available free of charge. The only requirement is a registration at www.VCmaster.com. The examples provided have been created using VCmaster. All annotated and illustrated design aids can be used as a ...

Welcome to the "Steel Beam-Column Design Examples" course by Engineering Examples. This course covers the analysis and design of steel beam-columns using the 13th Edition of the AISC Manual. All of the concepts of this subject are taught entirely through actual step-by-step examples. There are no boring powerpoints in which the instructor is trying to impress you with their knowledge by ...
