The Informal Reading Inventory (IRI) is an informal diagnostic reading test, usually based on materials that the pupil will be reading in class, to determine at what level instruction should begin. It is an informal test, based on criteria developed by Dr. Emmett Betts at Temple University in the 1940's, and revised and adapted by thousands of teachers since then. As an informal test, it must ...

Informal Reading Inventories (IRI) are often recommended as instructionally relevant measures of reading. However, they have also been criticized for inattention to technical quality. Examination of reliability evidence in nine recently revised IRIs revealed that fewer than half report reliability. Several appear to have sufficient reliability for lower stakes decisions such as selection of ...
