— Carl Jung, Aion (1951) The “shadow” is a concept first coined by Swiss psychiatrist Carl Jung that describes those aspects of the personality that we choose to reject and repress. For one reason or another, we all have parts of ourselves that we don’t like—or that we think society won’t like—so we push those parts down into our unconscious psyches.

Carl Gustav Jung is perhaps the most famous dissident of classic psychoanalysis. He strayed away from Freudian ideas and explored ancestral roots and the collective unconscious and had many revolutionary ideas. One of them was the 12 Jungian archetypes of personality. To define his 12 archetypes of personality, Jung studied the symbols and myths of many different cultures.

[Jung: An Introduction Into the World of Carl Jung: The ...](#)

For Jung, our primitive past becomes the basis of the human psyche, directing and influencing present behavior. Jung claimed to identify a large number of archetypes but paid special attention to four. Jung labeled these archetypes the Self, the Persona, the Shadow and the Anima/Animus.

[Jung: An Introduction Into the World of Carl Jung: The ...](#)

Carl Jung's archetypes represent society's collective unconscious. This is something that all human beings have in common regardless of their culture, biological sex, or the period that they lived in, according to the Swiss psychoanalyst and disciple turned enemy of the controversial Sigmund Freud.

[Jung: An Introduction Into the World of Carl Jung: The ...](#)

The book Psychology and Alchemy by Carl Jung left behind a legacy that's as fascinating as it is controversial.For this Swiss psychiatrist, one of the purposes of every human being is to become free and to nurture their individuality. However, to do so, one had to decode each symbol of the subconscious. The subject isn't easy to assimilate at first.

[Carl Jung - Archetypes](#)

Jung's ideas have not been as popular as Freud's and his archetypes have not been viewed favorably in modern psychology. This might be because his work tended to veer into the mystical and pseudoscientific, and are therefore often studied more as a historical artifact and in realms of literary criticism and popular culture applications of mythology than as a major contribution to the science ...

“Individuation means becoming a single, homogeneous being, and, in so far as ‘individuality’ embraces our innermost, last, and incomparable uniqueness, it also implies becoming one’s own self. We could, therefore, translate individuation as... ‘self-realization.’” (Collected Works of C.G. Jung: Volume 7, Carl Jung) A wonderful easy understanding of #Jung.

Carl Jung was born in Kesswil, Switzerland on July 26, 1875. His father was a pastor in the Swiss Reformed Church, and many of his relatives were ministers too. This was oppressive to Jung, and at the age of eleven or twelve he had a vision that shocked him profoundly. In this, he saw Basel Cathedral, with God above it seated on a golden throne. The Almighty let drop a titanic turd that ...
