What are Learning Theories? So what are educational learning theories and how can we use them in our teaching practice? There are so many out there, how do we know which are still relevant and which will work for our classes? There are 3 main schema's of learning theories; Behaviourism, Cognitivism and Constructivism.

[J. Larson & J. Marsh \(2005\). Making Literacy Real...](#)

Learning theories and Learning-theory research provide important insights into what makes students effective and efficient learners. While expanding our knowledge of broad theories as a central focus continues to diminish, present-day researchers typically embrace one or more of four foundational learning-theory domains.

Teachers also need to help learners make practice of what they have learned. This is important as learning is subject to the rate of occurrence of behaviour. The practicing is important for strengthening the responses. Learning should be reinforced. Students should therefore be given rewards. Teachers are to reward any desired behaviour in learning. However to weaken the undesired behaviour ...
